

## Letter of Recommendation for Dan Capps

Nathan Jimerson  
VIMRO, LLC  
Redmond, WA 98052  
10/16/17

Dear Hiring Manager,

It is my pleasure to recommend Dan Capps. Dan performed project work at AT&T as consultants for VIMRO, LLC for 3 months in 2017. Dan began his employment as an entry-level software and device quality assurance tester. After an initial one-month period of training, Dan independently led a team of testers through a quality assurance cycle. Each cycle consists of performance of software test plans specific to each device (7 cellular devices total), logging of issues and additional new test requirements, determining severity of issues, distributing to appropriate teams for resolution and obtaining signoff of acceptance. Following each test cycle, each test plan is reviewed and updated with new requirements and results are logged for reporting purposes.

Dan is a bright driven professional. He is very self-motivated and willing to do what it takes to achieve the goals set for him and the team. Dan's quick learning of the testing team technology and processes and his ability to lead a test cycle is an example of his great potential. His professionalism and communication made him a valuable member of the overall AT&T/VIMRO project technical team.

Dan welcomes challenges and leadership opportunities and will be an asset to any company that hires him. I'd happily re-add Dan to my team when I'm able to do so.

If you would like more information about Dan, I can be reached at (949) 292-0388.

Sincerely,

Nathan Jimerson  
Director of Client Services
